

REGULATORY COMPLIANCE AND ENVIRONMENTAL RESPONSIBILITY

NOR-ALTA IS A FULL SERVICE ENVIRONMENTAL CONSULTING COMPANY SERVING ALL SECTORS OF WESTERN CANADA'S ECONOMY INCLUDING ENERGY, POWER AND UTILITIES, AND INDUSTRIAL/COMMERCIAL DEVELOPMENTS.

For more than 30 years, we've helped our clients implement pro-active and cost-effective environmental solutions on projects throughout Western Canada. Our team of trained environmental professionals have a diverse range of work experience and education enabling them to contribute to multiple aspects of a project, and perform cross-functional tasks providing greater efficiency and overall cost savings to our clients.

DRILLING WASTE MANAGEMENT	HDD PIPELINE SERVICES	RECLAMATION & REMEDIATION
<p>Our team is available to our clients from the onset of the project, to help develop a drilling waste management plan, manage approvals, storage, disposal, and all the associated regulatory submissions.</p>	<p>We offer a broad range of services associated with your HDD projects, including drilling waste management, environmental monitoring, turbidity monitoring and environmental inspection services.</p>	<p>Our team of project managers & field technicians have the experience and knowledge to assist & guide our clients through the reclamation process, in order to apply for and receive a certificate of reclamation.</p>
INDUSTRIAL/COMMERCIAL	POWERLINE AND UTILITY SERVICES	ADDITIONAL CONSULTING SERVICES
<p>We help business owners, banks, real estate developers, and property stakeholders assess environmental liabilities and take the necessary steps to ensure properties meet all the required environmental requirements.</p>	<p>Our team of professionals provide powerline and utility land acquisition planning and environmental management solutions, specializing in all stages of the project lifecycle: pre-development, construction, and post-development.</p>	<p>Our experienced professionals offer additional consulting services such as air quality testing, compressed air testing/analysis, mobile analytics and hazardous waste management and disposal among our most frequently requested services.</p>

With a broad and multi-disciplinary view of environmental requirements, we're uniquely positioned to recommend solutions that help our clients:

 Take a proactive approach to regulatory compliance.	 Mitigate environmental risks on the job site.	 Demonstrate greater environmental responsibility.
