

## Industrial / Commercial

Nor-Alta Environmental Services Ltd. has the professional experience and knowledge to successfully manage and execute all commercial & industrial environmental projects. We provide environmental services for financial institutions, insurance companies, various commercial and industrial companies, utility services, as well as cities and municipalities. Nor-Alta also specializes in a variety of sites including gas stations, dry cleaners, contaminated properties, commercial/industrial properties, brown fields as well as contaminated agricultural, residential, and parkland properties.

Our team of professionals include Agrologists, Biologists, Chemists, Hydrogeologists, and Engineers, working together to provide a wide range of environmental consulting services across Western Canada.

Nor-Alta's pool of professional experience enables us to properly assess all environmental liabilities and engage in the necessary steps to ensure properties meet required environmental regulations. Furthermore, Nor-Alta prides itself on the ability to meet all client deadlines while providing services that are cost competitive without compromising the quality of work.

Prior to the commencement of any environmental projects, Nor-Alta can provide clients with a free, accurate and detailed cost estimate.
